

# FOR COACHES ONLY

This section will give you a sense of whether the participant responded in a way that affects the interpretation of their scores. There are three ways this is assessed:

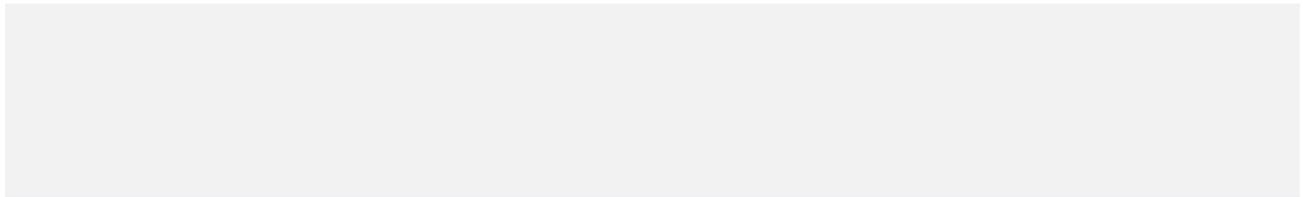

## 1. Time to Completion

This indicator provides the total time the participant took to complete the assessment. In general, the assessment should take between 10 to 15 minutes to complete. It is important to note when this time is very short or particularly long.

## 2. Positive Impression

This score assesses if the participant was responding to questions in a favorable manner, more than would normally be expected.

## 3. Consistent Responding

This score assesses if the participant was responding in a consistent manner. For example, if they responded "often" to "I set hard goals", they should respond "rarely" to "I set easy goals".
